

Color and Cabinet Selection

Combining stunningly rich aesthetics with superior strength and durability.

Cabinet Selection

Dyna-Shield™ Skirting

Beautiful and functional maintenance-free synthetic skirting is the best quality available. With an R-10 insulation value, this synthetic skirting is unsurpassed in beauty and function. A synthetic alternative offering reduced maintenance and an amazing resemblance to real wood. Dyna-Shield™ is resistant to mildew, rot, and stain, remaining attractive even after years of use.

Dyna-Last™ Skirting

Dyna-Last™ Skirting An exclusive feature of Dynasty Spas, the Dyna-Last™ Polymer Cabinet offers unparalleled look, texture, and performance. The Dyna-Last™ Polymer Cabinet is a full 7/8" thick, making it the thickest synthetic skirt in the industry. The reason for the thickness is quite simple – more insulation value, which in turn means a cost savings for the customer. In fact, the Dyna-Last™ Polymer Cabinet combined with interior foam insulation, is rated with an R-27 insulation value (as a complete insulation system).

Premium Cedar Skirting

The final touch on any spa is the skirt and casing which finishes off your spa and gives it an elegant appearance. Dynasty Spas uses only the finest quality tongue and groove cedar to create a natural outdoor look, while providing you with a product that is resistant to decay and rot. Every shipment of cedar is inspected by our craftsmen before it is proficiently cut and assembled. A high quality cedar stain finish is applied ensuring lasting beauty and an easy to maintain spa for many years to come.

Color Selection

An optional feature of Dynasty Spas is our innovative Lucite™ Cast Acrylic with Microban®. Created during the manufacturing process, Microban® is an antimicrobial product protection that inhibits the growth of bacterial that cause odors and stains on the spa's surface. This odorless, tasteless and colorless technology is built into the acrylic shell, and is guaranteed not to wear out, wash away, or rub off, EVER. Microban® has been proven safe and effective and has been given the thumbs up by the EPA. Thanks to Microban® antimicrobial product protection, you can find comfort knowing your spa will stay cleaner for a longer period of time.
